Dear Mr. Atteberry:

This is written to follow up on my letter about the possibility of my company performing community surveys for you.

Left Brain Concepts, Inc. is a boutique research and consulting firm. In business for more than 19 years, we have completed business and citizen surveys for numerous cities, towns and counties in Colorado. Feel free to explore our webpage if you have an interest. The links of Community Surveys, Investigative Research and Government Consulting are likely most pertinent.

I would be delighted to hear from you if we can be of service.

Thank you.

Sincerely,

Jeff Haugen  
President
