Subject: Spill and Chemical Cleanup Response Contractor

For the past several years, the City had a contract with Custom Environmental Services (CES) to help with spills and chemical cleanups. The contract with CES expired this year and they will no longer serve as the City's response contractor.

This month, two different companies were signed to a contract. One is the primary (call first) responder and one is the secondary. **The Primary contractor is RMCAT Environmental Services, Inc. They can be reached at 1-800-930-0011 or 303-425-7526.**

The secondary contractor is AET Environmental. If RMCAT is unavailable, AET may be contacted at 303-333-8521.

The Regulatory and Government Affairs Division at Utilities is managing this contract for the City. If you use this service during normal business hours, please notify Gale McGaha-Miller, at 221-6231 or pager 229-8490. If you use this service after normal business hours please contact Gale on the next business day.

When you call the contractor, please provide them with your name and department, but instruct them to direct the invoice to the Government and Regulatory Affairs Division in Utilities for processing.

Feel free to contact Gale if you have any questions. Please forward this to anyone who might use a cleanup contractor.

Thank You, Lisa Dobel
