Schrader Propane - Bid #5362, Propane

You'll need to look at last year's letter. It has some special language if I remember correctly.

*Propane Fuel  
1999*

Please see below pricing scenario for continuation of bid #5363 as per our discussion and discussions held with Shane and Tracy

Due to the volatile nature of wholesale prices for all fuels since the first of the year, Schrader Propane was unable to secure an attractive "fixed price" as applied through 10/1/99

Schrader Propane will honor the "High Limit" cap price of .535 until the markup of .08 is lower. A new "High Limit" price will be established no later than 9/1/00 and will be offered for the year 2000. This new "High Limit" cap price will be communicated in writing to yourself and fleet services.

Please feel free to contact me with any questions or concerns. We look forward to serving your propane requirements for the coming year.

Sincerely,

Scott Hartman  
Operations Mgr
