G.L. Hoff Company Construction Experience

Gregory L. Hoff, President and Construction Manager

For the past twenty seven years, Greg has been involved with all aspects of construction from architectural drafting, surveying and carpentry to supervision and construction management

Graduating from Northeastern Junior College in 1972 with a degree in Civil Engineering Technology, his early work included surveying and architectural design and drafting. He has held a commercial contractor's license with the City of Fort Collins since 1976. Currently, Greg is a licensed contractor in the cities of Loveland, Fort Collins, Longmont, Boulder, and Thornton.

Prior to 1984, Greg worked with Al Hockett, Inc. initially as an architectural draftsman and progressing to project superintendent. He was also a partner in H&M Builders from 1976 to 1980. This company specialized in custom homes, tenant finish and custom millwork.

Beginning in 1984, Greg started his own general contracting business, G L Hoff Company, which specializes in all types of commercial construction including sitework, excavation and concrete construction. As president and construction manager for G L Hoff Company, Greg works with a wide variety of projects including, schools, churches, city and government projects, city park developments, as well as many light industrial and concrete construction jobs. Greg oversees all project scheduling, review of construction procedures, quality control and safety enforcement.

Joel S. Reger, Estimator and Project Manager

Joel has a Bachelor of Science Degree in Construction Management from Colorado State University and fourteen years experience in the construction field. He has continued his education with estimating seminars including training with American Building Company's estimating Access workshop. He is also an active member of the Sigma Lambda Chi honorary national construction fraternity.

During the past ten years, as the chief estimator with G L Hoff Company, Joel has compiled bids and development estimates for projects valued at up to five million dollars. As estimator, he directs project bidding process as well as the review of specifications. He is also involved with project management, coordinating proposal requests and change orders with the architect or owner, overseeing material orders to insure that the project is completed in a timely manner and according to specifications.

William L. Vance, Project Superintendent

Bill brings over twenty three years of experience in construction related fields to his position as project superintendent. His background includes heavy equipment operating, truss construction, carpentry, and cost estimating. He also has experience in both commercial and residential property development from site work and utility lines through finish carpentry. Bill has built over five hundred new homes as well as several light commercial properties. His commanding knowledge of construction methods enables Bill to be an especially effective project superintendent.
