### Corporate Background

Nestor Traffic Systems, Inc a division of Nestor, Inc , is an emerging leader in providing innovative, video-based monitoring systems and services for traffic management and safety The company incorporates Nestor's patented, neural network pattern-recognition technologies into intelligent, real-time solutions that promote traffic efficiency and intersection safety by enabling better roadway utilization, planning and management

### Products and Services

- TrafficVision® - a real-time, video-based traffic management system that assists transportation agencies in improving safety, monitoring traffic flow, managing congestion, responding to incidents, and planning for maximum highway efficiency
- CrossingGuard® - a video-based intersection monitoring system that provides automated enforcement of red light running violations A built-in safety feature predicts potential red light violations and triggers an on-demand emergency extension of the red light signal for crossing traffic to prevent collisions
- CrossingGuard Services - a complete array of service and support to provide a comprehensive turnkey red light enforcement program Services include equipment installation, user training and support, citation issuing and payment processing, account management, "800 number" telephone hotline support, and public education

Some of the eligible category listings appropriate for our products would include CCTV (closed circuit TV) transportation surveillance equipment, traffic monitoring, automated intersection enforcement and highway-rail grade crossing monitoring, enforcement and/or control systems I have attached additional information which will provide more detailed product descriptions

Thank you for your assistance in registering Nestor Traffic Systems, Inc on your bidders list. If you need additional information please do not hesitate to call me
