Dear Mr. Karlin:

The Fort Collins Water Treatment Facility (FCWTF) appreciates your efforts to control the costs of your subscription rates for 2014. The Fort Collins Water Treatment Facility delivered 7802 million gallons of treated water in 2013. This will result in a decrease in your estimated subscription amount of \$21,621 to \$18,335. Thank you for your continued research efforts and for advancing the treatment technology and science of water.

Respectfully,
