

## CCSA Capability Overview

Presented By  
CCSA Inc.  
303-300-1024

## Agenda

- Introduction
- Our Technology Focus
- VanGo... Current Knowledge
- Approach - Making a Difference
- CCSA's Solution
- Sample Application – Before & After
- Compelling Reasons
- Conclusion

## Introduction

- CCSA has been an Information Technology consulting firm since 1993.
- We perform IT Consulting, Staff Augmentation, Fixed-Price Solutions Work within the Commercial and Public Sectors.
- CCSA has been financially stable firm since inception. Our growth is fueled by profit reinvestment. CCSA has never even exercised its line of credit.
- CCSA is a Women Minority Business Enterprise.

## Our Technology Focus

- Custom Application Development
- Data Warehouse (Architects to Developers) Tools – (Brio, Cognos, Informatica)
- J2EE (PM, Architects, Developers)
- .Net or any Microsoft Application Development
- EAI (BEA, Tibco, Vitria, WebMethods)
- Administrator (UNIX, Oracle, DB2, Sybase, SQL Server)
- QA/Testers & Tech Writers

## VanGo... Current Knowledge

- An Access-based application
- 36 active vehicles and 250 active participants in vanpool program with over 1,000 individual past participants
- Historical data needs to be preserved – That is changes should not compromise the data integrity or current records

## Approach – Making a Difference

- "Rapid" Analysis (By reviewing existing Apps)
  - Functional
  - Data
- GAP Analysis (Based on existing documented requirements)
- JAD – With Users what is working, what is not working, enhancement requirements, security, priorities, etc.
- Validate with Users – Understanding, proposed solution, approximate time-frame,
- Project Plan

## Approach – Making a Difference

- Development
- User Training, if needed
- Testing – User Testing & Acceptance
- Production Deployment

## CCSA's Solution

- A solution that would support
  - Reliability
  - Multi-users
  - Centralized Database
  - Historical data maintained w/o compromise
  - Security

## Sample of a Mortgage Application – Before

- Three different Applications (C/S)
- Over 15 databases and 425 tables
- Cumbersome and “Programmer assisted production system”
- Reports took 6 hours and had to be monitored

## Sample of a Mortgage Application - After

- We helped them streamline their Business Process & Introduced controls
- Unified single Application (Web based)
- 1 database and 78 tables fully normalized
- Simple and "User driven" self-managed system Compelling Reasons

## Compelling Reasons

1. Our Qualification
2. Our Experience (Public sector & Commercial)
3. Our Approach
4. Our Delivery
  - a. Quality
  - b. Timeliness
  - c. Cost
5. Free Preliminary Analysis
6. Fee Project Quality Assurance

## Conclusion

We strongly believe that we can provide you with a multitude of comprehensive solutions that are:

- Cost-effective
- Timely
- Scalable
- A Unique Partnership
