

CITY OF FORT COLLINS

ADDENDUM No. 1
PLACEMENT OF FEATURE LINKED ADDRESS ANNOTATIONS
P-836

SPECIFICATIONS AND CONTRACT DOCUMENTS

Description of Bid P-836 Placement of Feature Linked Address Annotations

OPENING DATE: May 7, 2002, 2:00p.m. (our clock)

To all prospective bidders under the specifications and contract documents described above, the following changes are hereby made.

OPENING DATE HAS BEEN CHANGED TO MAY 20, 2002, 2:00P.M. (OUR CLOCK)

Addendum: Scope of Work Expansion,

1a. Corrections to the ArcInfo address list Database

The Contractor will reference the Poudre Fire Authorities current map book and edit the City of Fort Collins address database to reflect addresses that contain building and unit designations. The address database itself contains some of this information however it is concatenated, meaning the building and unit designations are in one field. The cities current updating procedures do not allow us to distinguish between buildings and units. Consequently the unit field may be populated with data that needs to be split into two fields. The contractor will be required to quality control the current entries in the address database and make any needed corrections by capturing units and buildings in separate fields. The contractor will use the Poudre Fire Authorities detailed run book maps to add the building and unit attributes that do not currently exist in the address database. Also annotations will be created for the building designations. Sample pages of The Poudre Fire Authorities run book maps can be provided in a pdf format at the contractor's request. The contractor should provide in their submittal separately what this additional work would cost.

If you have any questions please contact Keith I. Ashby, CPPO, Buyer, at 970-416-2191.

RECEIPT OF THIS ADDENDUM MUST BE ACKNOWLEDGED BY A WRITTEN STATEMENT ENCLOSED WITH THE BID/QUOTE STATING THAT THIS ADDENDUM HAS BEEN RECEIVED.
