The cost difference is with the hoist system, the Maxey is stronger I think, it sure looks like it is. I will still stay with the Maxey.
thanks

Butch,

Was that small EZ-Dumper a strong enough trailer for your needs? Could we order the small one from D&E and the larger unit from Maxey? There's a big difference in price between the two smaller units -- not so much between the bigger ones.

If the EZ-Dumper just won't do, that's okay -- I wanted to make sure.

Jim

Christina.
