

**Transportation Impact Analysis-**  
**1201 S. Shields Subdivision Plat**

This application is merely to plat the lot of an existing single family home. No physical changes are proposed at this time. On 6/16/2006, Sheri Wamhoff stated in an email to Troy Jones at M. Torgerson Architects, "For reviewing and approving a plat for an existing single family home we do not need street sections, soils report, or a traffic study."
