

Ordinance No 16 series 1907

An ordinance amending the sixth provision of section two of ordinance No 10 of the series of 1901, entitled "Relating to fire limits and building inspection "

Passed and adopted May 27th, 1901.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF FORT COLLINS

Section 1 That the sixth provision of section 2 of ordinance No. 10 of the series of 1901 entitled "Relating to fire limits and building inspection." Passed and adopted May 27th, 1901 be amended so as to read as follows

Sixth-- All open areas, built in connection with the buildings, described in this ordinance, may project not more than five feet from the street line, providing same be well guarded with iron rails and provided further that the openings shall be at right angles to the street The approach to such areas shall in all cases be on the same grade as the sidewalk at that point for the full width of the openings to the street line Areas not open may be built covered with iron grates, on a level with the sidewalk at that point, providing the same do not project more than four feet from the street line Coal holes and areas not open may be placed at any projection within a line not exceeding twelve feet from the street line, but no areas, coal holes or any excavation whatever shall be made or begun in or under any street, sidewalk or alley, until a petition therefor has been filed with the City Council and permission granted And the City Council shall require such barriers and danger signals to be used, and may exact such indemnifying bonds during the construction and maintenance of said work, or during any excavation adjoining the street lines, as in their judgment will fully insure the public safety

Passed and adopted, signed and approved, this 19th day of August 1907

Attest -

Mayor
