WHEREAS, the Fort Collins Environmental Services Radon Program (the "Program") is part of the City's indoor air quality program, which is guided by the Air Quality Plan with a policy goal to educate and encourage residents to reduce their exposure to indoor air pollution; and

WHEREAS, the current radon program includes aggressive education, a voluntary radon testing program, mandatory radon mitigation in new construction, and an ordinance requiring the distribution of radon information to all residential home-buyers at point-of-sale; and

WHEREAS, the City has been awarded a grant from the Colorado Department of Public Health and Environment ("CDPHE") in the amount of \$7,961; and

WHEREAS, the grant requires \$5,307 of matching funds, which have been appropriated in the 2017 Environmental Services operating budget and are available for transfer to the Environmental Services Radon Program; and

WHEREAS, Article V, Section 9, of the City Charter permits the City Council to make supplemental appropriations by ordinance at any time during the fiscal year, provided that the total amount of such supplemental appropriations, in combination with all previous appropriations for that fiscal year, does not exceed the current estimate of actual and anticipated revenues to be received during the fiscal year; and

WHEREAS, City staff has determined that the appropriation of the CDPHE grant funds as described herein will not cause the total amount appropriated in the General Fund to exceed the current estimate of actual and anticipated revenues to be received in that fund during the fiscal year; and

WHEREAS, Article V, Section 10, of the City Charter authorizes the City Council to transfer by ordinance any unexpended and unencumbered appropriated amount or portion thereof from one fund or capital project account to another fund or capital project account, provided that the purpose for which the transferred funds are to be expended remains unchanged; and

WHEREAS, the Program benefits public health, safety, and welfare of the citizens of Fort Collins and the public purpose of educating and encouraging residents to reduce exposure to indoor
