

ORDINANCE NO. 083, 2003
OF THE COUNCIL OF THE CITY OF FORT COLLINS
AMENDING CHAPTER 12 OF THE CITY CODE TO
PROHIBIT THE CREATION OR ENFORCEMENT OF
COVENANT RESTRICTIONS ON CERTAIN RESOURCE CONSERVING
ACTIVITIES AND ELIMINATING A SIMILAR PROVISION
OF THE LAND USE CODE

WHEREAS, Section 3.4.9 of the Land Use Code of the City of Fort Collins currently nullifies and renders unenforceable any private covenants or other agreements established after July 1, 2001, that restrict the use of real property for certain resource conserving activities, including xeriscape landscaping, specified solar collectors, specified clothes lines, and compost bins; and

WHEREAS, in order to more widely promote, encourage and allow the use of resource conserving practicing in the use of real property, staff has recommended that this prohibition be expanded to prohibit the creation or enforcement of similarly restrictive covenants or agreements; and

WHEREAS, in addition, staff has recommended that the City also prohibit any private covenants which mandate that turf grass landscaping be planted on real property; and

WHEREAS, these modifications can be accomplished by adding as a new section in Chapter 12 of the City Code a version of the language currently provided in Section 3.4.9 of the Land Use Code, modified to expand the scope of its application and to address turf grass requirements; and

WHEREAS, the Water Board considered the proposed new City Code section on April 24, 2003, and recommended approval with certain modifications that have been incorporated herein; and

WHEREAS, the Planning and Zoning Board considered the proposed new City Code section on May 1, 2003, and expressed no objection to the substance of the provision, but recommended that further public outreach be conducted; and

WHEREAS, with the addition of the proposed new City Code provision, Section 3.4.9 of the Land Use Code is no longer needed and staff has recommended that it be deleted; and

WHEREAS, the City Council has determined that the important public health, safety and welfare objective of conserving valuable resources including water, soil, electric and natural gas resources, and recycling certain compostable wastes, will be served and advanced by prohibiting the creation or enforcement of private covenants that prohibit the installation of xeriscape landscaping, solar/photo-voltaic collectors, clothes lines (if located in backyards), or odor controlled compost bins, or that require a portion of any individual lot to be planted in turf grass.
