

RESOLUTION 2017-005  
OF THE COUNCIL OF THE CITY OF FORT COLLINS  
EXPRESSING SUPPORT FOR THE MAYORS NATIONAL  
CLIMATE ACTION AGENDA'S OPEN LETTER TO  
PRESIDENT-ELECT DONALD TRUMP ON CLIMATE ACTION

WHEREAS, in 2015, City Council adopted several of the most aspirational greenhouse gas emissions reduction goals in the world in its 2015 Climate Action Plan Framework: 20% reductions by 2020 and 80% reductions by 2030 compared to 2005 emissions levels, and carbon neutrality by 2050; and

WHEREAS, on November 22, 2016, a group of U.S. Mayors associated with the Mayors National Climate Action Agenda ("MNCAA"), of which the City is a member, wrote an open letter to President-elect Donald Trump on Climate Action (the "MNCAA Letter") calling upon him to provide funding for transit- and energy-related infrastructure improvements, to continue offering tax credits for electric vehicles, renewables, and other clean technologies, and to embrace the Paris Climate Agreement; and

WHEREAS, the funding and tax credits called for by the MNCAA Letter would help the City of Fort Collins meet its 2020, 2030, and 2050 climate goals; and

WHEREAS, the mayors of more than 48 cities have endorsed the MNCAA Letter to date, including those of Denver, Boulder, Longmont, and Aspen; and MNCAA welcomes mayors of additional cities to endorse their Letter, and

WHEREAS, the City Council desires to endorse the MNCAA Letter.

NOW THEREFORE BE IT RESOLVED BY THE COUNCIL OF THE CITY OF FORT COLLINS as follows:

Section 1. That the City Council hereby makes and adopts the determinations and findings contained in the recitals set forth above.

Section 2. That the City Council endorses and supports the MNCAA Letter.

Passed and adopted at a regular meeting of the Council of the City of Fort Collins this 17th day of January, A.D. 2017.

## Open Letter to President-elect Donald Trump on Climate Action

November 22, 2016

Dear President-elect Trump,

As Mayors, we have taken it upon ourselves to take bold action within our cities to tackle the climate crisis head-on. We write today to ask for your partnership in our work to clean our air, strengthen our economy, and ensure that our children inherit a nation healthier and better prepared for the future than it is today.

We lead 39 small and large American cities, comprising nearly 31 million Americans in both blue and red states. We have joined together in the U.S. Mayors' National Climate Action Agenda (MNCAA), or the #ClimateMayors, in addressing the greatest challenge of our time, climate change. Each of our cities is committing to ambitious targets to reduce greenhouse gas emissions, set climate action, regularly report on our progress, share lessons and hold each other accountable. Around the globe, cities are working together through organizations like C40 as well.

U.S. Climate Mayors meeting with their counterparts from China at the U.S. China Climate Summit in Los Angeles

The effects of climate change—extreme storms, wildfires and drought; sea level rise and storm surge; choking air pollution in cities; disruption of agricultural supply chains and jobs in rural heartlands; and coastal erosion, to name a few—are a clear and present danger to American interests at home and abroad. This is why the U.S. Department of Defense stated in 2015 “that climate change is an urgent and growing threat to our national security”. Furthermore, estimates have shown these impacts from climate change could cost the American economy \$500 billion annually by 2050, and that figure will only rise unless we work together to stem, and ultimately reverse, the amount of greenhouse gases entering our atmosphere.

The cost of prevention pales in comparison to cost of inaction, in terms of dollars, property and human life. As our incoming President, as a businessman, and as a parent, we believe we can find common ground when it comes to addressing an issue not rooted in politics or philosophy, but in science and hard economic data. Simply put, we can all agree that fires, flooding and financial losses are bad for our country, that we need to protect our communities’ most vulnerable residents who suffer the most from the impacts of climate change, and that we all need healthier air to breathe and a stronger economy—rural and urban, Republican and Democrat—and in terms of our domestic quality of life and our standing abroad.

On November 8, American voters approved more than \$200 billion in local measures, funded by their own local tax dollars, to improve quality of life and reduce carbon pollution. Seventy percent of voters in Los Angeles County, the car capital of the world, approved a \$120 billion, multi-decade commitment to public transit. Seattle voters approved transit investments totaling \$54 billion; Austin voters approved a record-setting \$720 million mobility bond; Boston voters approved investment in affordable housing, parks, historic preservation and more.

As President, you will have the power to expand and accelerate these local initiatives which the people resoundingly supported. We call upon you and the federal government you will lead to help cities leverage funds for the hundreds of billions of dollars in transit, energy, infrastructure and real estate development necessary to upgrade our infrastructure for the 21st century. We ask that you lead us in expanding the renewable energy sources we need to achieve energy security, address climate change and spark a new manufacturing, energy and construction boom in America. We ask that you help

provide American businesses the certainty to invest through continued tax credits for electric vehicles, solar power, renewables and other clean technologies. And we ask that you shift to embrace the Paris Climate Agreement and make U.S. cities your partner in doing so.

While we are prepared to forge ahead even in the absence of federal support, we know that if we stand united on this issue, we can make change that will resonate for generations. We have no choice and no room to doubt our resolve. The time for bold leadership and action is now.

Signed,

Mayor Eric Garcetti  
City of Los Angeles, CA

Mayor Martin J Walsh  
City of Boston, MA
