WHEREAS, the term "mental health" refers to cognitive, behavioral, and emotional wellbeing that can affect daily life, relationships, psychological resilience and even physical health; and

WHEREAS, mental illness and substance use disorders are treatable chronic health conditions; and

WHEREAS, mental illness and substance use disorders are serious health issues for one in five people in Larimer County, including children, teens, adults and seniors; and

WHEREAS, although great strides have been made, many of our citizens experience the negative effects of mental health issues themselves or through family members, neighbors or friends; and

WHEREAS, comprehensive, community-based services that respond to those with mental health needs are cost-effective, and access to necessary medication and appropriate treatment helps prevent individuals from ending up in emergency rooms and the criminal justice system; and

WHEREAS, the provision of a continuum of mental health services in our community is critical to individuals, families, schools, businesses, law enforcement and healthcare providers, and there is a strong and growing body of evidence that supports the cost effectiveness and benefits to communities that have successfully implemented continuums of mental health and related care; and

WHEREAS, on July 24, 2018, the Board of County Commissioners of the County of Larimer adopted Resolution No. 07242018R013, which placed on the November 6, 2018, general election ballot a ballot issue that, if passed, would increase the County's sales and use taxes by one quarter of one percent (0.25%), with the revenue from such tax being used to provide detox, behavioral and mental health care services and facilities to residents of Larimer County; and

WHEREAS, Larimer County taxes would be expected to increase by \$19,000,000 in 2019, and by whatever additional amount is raised annually thereafter for 20 years; and

WHEREAS, the City Council finds that the funding provided by this tax would be an investment in the health and well-being of the Fort Collins community and surrounding areas and would advance a number of City strategic objectives related to social sustainability and public safety.
