

Vacate

Fort Collins, Colo, Sept. 15, 1900.

To The Honorable Mayor and City Council of the City of Fort Collins:

I hereby petition your Honorable Body to vacate a strip of land lying along the south boundary of blocks 188 and 198 and along the east boundary of blocks 197 and 198. The last mentioned strip is not open as a street and never has been, but it was so dedicated at the time the plat was filed. It cuts my land in two and am satisfied that you will be willing to give me title to it so as to make my land intact. That on the south of the blocks was dedicated to the city as a portion of a street. Since then I have given the county a road 60 feet wide on the south side of the above mentioned quarter section line and it is so fenced and used. This strip to which I now wish to regain title is 33 ft. wide and is, and for some time has been, included in my fields on the north side of the road as now used.

The granting of my request in no way effects the interests of other property owners, as all the abutting property belongs to me; neither does it effect the convenience of the public, for I have given a road of ample width along the north side of which is a row of large shade trees making a natural boundary between the property and street.

C. B. Andrews
.....
