BACKGROUND

The 2010-2011 budget process began in earnest following the City Council retreat in May 2009. Since then, significant progress has been made:

- City Council priorities have been documented and shared with interdepartmental City teams (Results Teams) and department staff (sellers).
- Community feedback was solicited on budget priorities. A board and commission public forum on key Result Areas was held on September 2.
- An online spending exercise was made available on the City's website.

- Requests for Results were developed with input from City Council, board and commission members and the public.
- Nearly 375 budget offers were submitted and categorized in seven key Result Areas.
- Results Teams reviewed offers and performance indicators, negotiated with sellers and submitted their prioritized list of funding recommendations to the City Manager and Budget Lead Team.
- The City Manager and Executive Team (Budget Lead Team) reviewed the Result Team recommendations and made adjustments based on the overall budget situation.
- The City Manager finalized the Recommended Budget and, as required by the Charter, submitted it to the City Clerk and the City Council on September 4, 2009.
