NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements of the parties contained herein, and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, it is agreed as follows:

I. SECURING OF PUBLIC BENEFITS

A. Overview.
1. **Method of Securing Public Benefits.** Although the intent is that one or more of the Districts will ultimately reimburse the Developer for those Public Benefits they have the legal ability to fund, the Developer shall have the obligation to develop, construct and/or install the Public Benefits in accordance with the terms and conditions of this Agreement.

2. **Public Benefits Summary.** Exhibit K to the Service Plan generally summarizes four (4) categories constituting the Public Benefits which are required to be secured under this Agreement: (1) Affordable Housing; (2) Significant Reduction in Potable Water Usage; (3) Enhanced and Expanded Open Space, Parks and Trails; and (4) Rehabilitation of the Windsor #8 Ditch. Each of these categories are defined and addressed in Sections I.B.1 through I.B.4. below.

**B. Public Benefits Secured**

1. **Affordable Housing.**

   a. The Developer has not yet submitted final site plans or development approval applications to the City for Waters’ Edge East, but the Developer anticipates that such future site plan and development approval applications will include approximately 471 residential lots. The “**Total Dwelling Units**” shall mean the total number of dwelling units authorized under one or more approved development plans for Waters’ Edge East. For the purposes of determining compliance with this Section I.B.1.a., at least 10% of the Total Dwelling Units approved within Waters’ Edge East (with any fraction rounded up to the next whole number) must each be a dwelling unit affordable for households earning eighty percent (80%) or less of the area median income for the Fort Collins/Loveland Metropolitan Statistical Area published annually by the U.S. Department of Housing and Urban Development (“**AMI**”) for the applicable Household Size (as hereinafter defined), which units may be offered for-sale or for-rent (“**Required Affordable Units**”). However, the Required Affordable Units offered for-rent must on average be affordable to households earning no more than sixty percent (60%) of the AMI for the applicable Household Size. This sixty percent (60%) average shall be calculated using the averaging methodology adopted by the Colorado Housing and Finance Authority in response to the United States Congress’ Fiscal Year 2018 Omnibus Spending Bill signed into law by President Trump on March 23, 2018. As used herein, “**Household Size**” means, (i) for Required Affordable Units that are studios, a family of 1 person, (ii) for Required Affordable Units that have a single bedroom, a family of 1.5 persons (meaning that the household income level for such Required Affordable Units will be equal to the average of the AMI for a family of 1 and a family of 2) and (iii) for Required Affordable Units that have more than 1 bedroom, a family of 2 persons. If the approved number of Total Dwelling Units is more than 471 residential lots, the number of the Required Affordable Units shall be increased accordingly by the 10% requirement. However, if less than 471 Total Dwelling Units are approved, the number of Required Affordable Units shall not be less than 48 dwelling units.

   b. Each of the Required Affordable Units must continue to satisfy its affordability standard as defined in Section I.B.1.a. above for at least twenty (20) years from the date of issuance of the first certificate of occupancy for each such unit. This means that it is the intent of the Parties that the initial and subsequent conveyances and leases of each of the Required
Affordable Units during the twenty (20)-year period must be to purchasers or lessees whose AMI qualifies them for that Required Affordable Unit as defined in Section I.B.1.a. above. This requirement shall be secured and deemed satisfied upon recording of a restrictive covenant or deed restriction for each of the Required Affordable Units in a form reasonably acceptable to the City, which shall include (without limitation) the information set forth in the last paragraph in Section I.B.1.c. below, that is for the City’s benefit and enforceable by the City at law and in equity and recorded with the Larimer County Clerk and Recorder (the “20-Year Covenant”). When recorded, the 20-Year Covenant shall not be subordinate to any lien or other financial encumbrance other than liens for real property taxes. Notwithstanding the foregoing, the Developer may use methods other than the 20-Year Covenant to secure for twenty (20) years the affordability of the Required Affordable Units if the method is first approved in writing by the City.

c. The Required Affordable Units may be provided through any of the following three (3) mechanisms or by any other mechanism mutually agreed upon in writing by the Developer and the City, or any combination of the same:

(i) Developer has developed any portion of the Required Affordable Units within Waters’ Edge East under one or more approved final development plan.

(ii) Execution of a contract for the sale of land of any portion of Waters’ Edge East by the Developer to a non-profit or for-profit builder with a legally enforceable contract obligation to the City in a form reasonably acceptable to the City to develop such land as part or all of the Required Affordable Units, and the subsequent development of that land under one or more future approved final development plans for Waters’ Edge East by such builder as part or all of the Required Affordable Units. At the time any such sale is closed and relevant documentation provided to the City by the Developer for each such sale, the City shall determine the number and type of Required Affordable Units which reasonably could be expected to develop on such acreage pursuant to the future approved final development plan and all other applicable City ordinances, regulations, standards and policies and, upon such determination, those units shall count toward the Required Affordable Units.

(iii) A reservation of any portion of Waters’ Edge East to be developed under one or more future approved final development plans by the Developer for the benefit of and legally enforceable by the City at law and in equity for the eventual sale to an entity for development of all or a portion of the Required Affordable Units. At the time such reservation is made by the Developer and the reservation is in a form reasonably acceptable to the City that is for the City’s benefit and enforceable by the City at law and in equity and recorded with the Larimer County Clerk and Recorder, the City shall determine the number and type of Required Affordable Units which could reasonably be expected to develop on such acreage pursuant to the future approved final development plan and all other applicable City ordinances, regulations, standards and policies. Upon such determination, those units shall count toward the Required Affordable Units.

As to any Required Affordable Units provided pursuant to subparts (ii) and (iii) above, in the deed conveying the land for development of such Required Affordable Units from Developer to the initial purchaser thereof from the Developer (the “Initial Purchaser”), the Developer must include
the following: (A) a specific reference in the body of the deed, reflecting that the property conveyed thereby is conveyed subject to the 20-Year Covenant, (B) attach a copy of the 20-Year Covenant as an exhibit to such deed, (C) a requirement that the Initial Purchaser include, in the body of the deed conveying each such Required Affordable Unit to a residential purchaser from such Initial Purchaser, a statement that, in accordance with the 20-Year Covenant, if such residential purchaser or any subsequent owner of such Required Affordable Unit sells or leases such Required Affordable Unit while the Required Affordable Unit is subject to the 20-Year Covenant, such subsequent owner or lessee must comply with the affordability requirements of the 20-Year Covenant as set forth in Section I.B.1.a. above (the “Affordability Notice”) and (D) a provision that, while the Required Affordable Units to be developed on such land are subject to the 20-Year Covenant, the Initial Purchaser thereof is responsible for causing to be prepared annually a report to the City, regarding the compliance of such Required Affordable Units with the 20-Year Covenant as set forth in Section I.B.1.a. above (the “Compliance Report”). As to any of the Required Affordable Units provided pursuant to subpart (i) above, the Developer shall include in any deed by which it conveys a Required Affordable Unit to the Initial Purchaser of the Unit: (1) a specific reference in the body of the deed, reflecting that the property conveyed thereby is conveyed subject to the 20-Year Covenant, (2) attach a copy of the 20-Year Covenant as an exhibit to such deed, and (3) the Affordability Notice. In addition, for the Required Affordable Units provided pursuant to subpart (i) above, the Developer shall cause the Compliance Reports for these Units to be prepared and delivered to the City on an annual basis. Each annual Compliance Report for the Required Affordable Units provided under subparts (i), (ii) and (iii) above must be delivered to the City within ninety (90) days after the end of each calendar year and must report whether any Required Affordable Units which were for-rent at any time during the past calendar year and whether any Required Affordable Units which were sold during such preceding calendar year, that such rentals and/or sales, as applicable, were to a household satisfying the requirements of Section I.B.1.a. above.

a. Non-Potable Water System. The Parties acknowledge that the Developer has agreed to install a non-potable water system to provide irrigation water to all the natural areas and private lots in the Second Filing as provided under the Second Filing FDP and the Second Filing Development Agreement. It is the intention that such non-potable water system shall be owned and operated by Waters’ Edge Metropolitan District No. 1 or one of the other Districts. The Developer shall apply to the District for acceptance of such non-potable water system in accordance with the relevant agreement(s) in place between the Developer and the
District concerning acquisition of public improvements and infrastructure. Developer’s legal obligation to provide this non-potable water system is a prerequisite to Developer’s receipt from the City of any building permit for residential construction under the approved Second Filing FDP. The Parties acknowledge and agree that a final irrigation construction plan for this non-potable water system shall be provided to the City for its review and approval prior to the issuance of any building permit for the Second Filing FDP. Subject to the successful inclusion of Waters’ Edge East into the Districts, Developer agrees to install a non-potable water system to provide irrigation water to all the natural areas and private lots within Waters’ Edge East. The City’s approval of a future final development plan and development agreement for Waters’ Edge East, as required under the City Land Use Code (“LUC”) that legally obligates the Developer to provide such non-potable water system and the City’s approval of a final irrigation construction plan for that system shall be prerequisites to Developer’s receipt from the City of any residential building permit for construction under that future approved final development plan for Waters’ Edge East.

b. **Strategic Landscaping.** The Developer desires to promote water conservation in the community and has agreed to design and install landscaping in a minimum of 50% of the natural areas, open space, and parks that fall within a “low” or “very low” landscape hydrozone calculation within the Second Filing as provided in the Second Filing FDP (the “Strategic Landscaping”). The Parties acknowledge that the Second Filing FDP includes the Strategic Landscaping and the Second Filing Development Agreement obligates the Developer to provide the Strategic Landscaping. The Parties also acknowledge that the Developer’s legal obligation to provide the Strategic Landscaping as set out in the Second Filing FDP is a prerequisite to Developer’s receipt from the City of any building permit for residential construction under the approved Second Filing FDP.

3. **Enhanced and Expanded Open Space, Parks and Trails.**

a. **Trails & Pedestrian Friendliness.** The Developer desires to create a community that is pedestrian-friendly, walkable, and inter-connected and has committed under the Second Filing FDP and the Second Filing Development Agreement to include the following features in the approved Second Filing to promote walkability and pedestrian friendliness: (i) construction of an eight foot wide tree lawn and five foot wide sidewalk on both sides of Morningstar Way; (ii) a twelve foot wide soft trail along the Natural Habitat Buffer Zone; and (iii) four to six foot wide sidewalk and soft trail connections through blocks and open space areas (the “Pedestrian Benefits”). The Parties acknowledge that the Second Filing FDP includes the Pedestrian Benefits and the Second Filing Development Agreement obligates the Developer to provide the Pedestrian Benefits. Developer’s legal obligation to provide the Pedestrian Benefits is a prerequisite to Developer’s receipt from the City of any building permit for residential construction under the approved Second Filing FDP.

b. **Public Spaces.** Subject to the successful inclusion of Waters’ Edge East into the Districts and to the extent that such benefits are not completed within the Second Filing, Developer agrees to include the following amenities for public use in a future final development plan for Waters’ Edge East: a senior activity center that promotes social inclusion and connections with amenities such as a shared workshop and art studio, innovative open spaces
with amenities such as sports courts, a community garden, and a sustainability center with charging stations for electric mowers and educational materials on renewable energy sources (the “Public Spaces”). The City’s approval of a future final development plan and development agreement for Waters’ Edge East, as required under the LUC, that legally obligates the Developer to provide the Public Spaces shall be a prerequisite to Developer’s receipt from the City of any residential building permit for construction under that future approved final development plan for Waters’ Edge East.

4. Rehabilitation of the Windsor #8 Ditch. As part of the Developer’s development of Waters’ Edge East, the Developer agrees to rehabilitate the Windsor #8 Ditch, including creation of wetlands to improve water quality, creation of wildlife habitat, trails that link to the regional trail system provided by other parties, improved storm water retention and transformation of the ditch area into a usable community natural area (the “Ditch Rehabilitation”). The City’s approval of a future final development plan and development agreement for Waters’ Edge East, as required under the LUC, that legally obligates the Developer to provide the Ditch Rehabilitation shall be a prerequisite to Developer’s receipt from the City of any building permit for residential construction under that future approved final development plan for Waters’ Edge East.

C. City Acknowledgement. The City specifically acknowledges that this Agreement secures the delivery of the Public Benefits as described and secured in paragraphs I.B.1 through I.B.4. above, and satisfies the requirement and precondition set forth in Section IV.B. of the Service Plan for securing the Public Benefits as generally described in Exhibit K of the Service Plan.

If such default is not of a type which can be cured within such thirty (30) day period and the defaulting Party gives written notice to the non-defaulting Party within such thirty (30) day period that it is actively and diligently pursuing such cure, the defaulting Party shall have a reasonable period of time given the nature of the default following the end of such thirty (30) day period to cure such default, provided that such defaulting Party is at all times within such additional time period actively and diligently pursuing such cure and provided further that in no event shall such cure period exceed a total of six (6) months. Notwithstanding the cure period set forth in this Section II.D.1, Developer, its successors and assigns, shall have the right to include a claim for breach of this Agreement in any action brought under C.R.C.P. Rule 106 if Developer, its successors and assigns, believes that the failure to include such claim may jeopardize its ability to exercise its remedies with respect to this Agreement at a later date. Any claim for breach of this Agreement brought before the expiration of the applicable cure period set forth in this Section II.D. shall not be prosecuted by Developer, its successors and assigns, until the expiration of such cure period except as set forth in this Agreement, and shall be dismissed by Developer, its successors and assigns, if the default is cured in accordance with this Section II.D.
