C. Funding will be detailed in Exhibit C of the funding provisions.

Section 5. Project Payment Provisions
A. The State will reimburse the Local Agency for incurred costs relative to the project following the State’s review and approval of such charges, subject to the terms and conditions of this Contract. Provided however, that charges incurred by the Local Agency prior to the date this contract is executed by the State Controller will not be charged by the Local Agency to the project, and will not be reimbursed by the State.

B. The State will reimburse the Local Agency’s reasonable, allocable, allowable costs of Performance of the Work, not exceeding the maximum total amount described in Exhibit C. The applicable principles described in 49 C.F.R. 18 Subpart C and 49 C.F.R. 18.22 shall govern the allowability and allocability of costs under this contract. 1. In accordance with the provisions of Section 5 and with the terms and conditions of this contract;
2. Necessary for the accomplishment of the Work;
3. Reasonable in the amount for the goods and services provided;

5. Incurred for Work performed after the effective date of this contract;

C. The Local Agency shall establish and maintain a proper accounting system in accordance with generally accepted accounting standards (a separate set of accounts, or as a separate and integral part of its current accounting scheme) to assure that project funds are expended and costs accounted for in a manner consistent with this contract and project objectives.
1. All allowable costs charged to the project, including any approved services contributed by the Local Agency or others, shall be supported by properly executed payrolls, time records, invoices, contracts or vouchers evidencing in detail the nature of the charges.
2. Any check or order drawn up by the Local Agency, including any item which is or will be chargeable against the project account shall be drawn up only in accordance with a properly signed voucher then on file in the office of the Local Agency, which will detail the purpose for which said check or order is drawn. All checks, payrolls, invoices, contracts, vouchers, orders or other accounting documents shall be clearly identified, readily accessible, and to the extent feasible, kept separate and apart from all other such documents.

D. If the Local Agency is to be billed for CDOT incurred costs, the billing procedure shall be as follows:
1. Upon receipt of each bill from the State, the Local Agency will remit to the State the amount billed no later than 60 days after receipt of each bill. Should the Local Agency fail to pay moneys due the State within 60 days of demand or within such other period as may be agreed between the parties hereto, the Local Agency...
agrees that, at the request of the State, the State Treasurer may withhold an equal amount from future apportionment due the Local Agency from the Highway Users Tax Fund and to pay such funds directly to the State. Interim funds, until the State is reimbursed, shall be payable from the State Highway Supplementary Fund (400).

2. If the Local Agency fails to make timely payment to the State as required by this section (within 60 days after the date of each bill), the Local Agency shall pay interest to the State at a rate of one percent per month on the amount of the payment which was not made in a timely manner, until the billing is paid in full. The interest shall accrue for the period from the required payment date to the date on which payment is made.

E. The Local Agency will prepare and submit to the State, no more than monthly, charges for costs incurred relative to the project. The Local Agency’s invoices shall include a description of the amounts of services performed, the dates of performance and the amounts and description of reimbursable expenses. The invoices will be prepared in accordance with the State’s standard policies, procedures and standardized billing format to be supplied by the State. If the project is funded by MMOF, then billing for all work must be submitted 30 days prior to end of State fiscal year. The State fiscal year ends June 30th. MMOF projects must submit final billing for all work 30 days prior to the end of the State fiscal year that funds expire. If MMOF are used, and the State knows that the funds will expire, the State shall promptly notify Local Agency of the expiration date. The State will promptly notify the Local Agency if that expiration date changes.

F. To be eligible for payment, billings must be received within 60 days after the period for which payment is being requested and final billings on this contract must be received by the State within 60 days after the end of the contract term.

1. Payments pursuant to this contract shall be made as earned, in whole or in part, from available funds, encumbered for the purchase of the described services. The liability of the State, at any time, for such payments shall be limited to the amount remaining of such encumbered funds.

2. In the event this contract is terminated, final payment to the Local Agency may be withheld at the discretion of the State until completion of final audit.

3. Incorrect payments to the Local Agency due to omission, error, fraud or defalcation shall be recovered from the Local Agency by deduction from subsequent payment under this contract or other contracts between the State and Local Agency, or by the State as a debt due to the State.

4. Any costs incurred by the Local Agency that are not allowable under 49 C.F.R. 18 shall be reimbursed by the Local Agency, or offset against current obligations due by the State to the Local Agency, at the State’s election.

Section 6. Option Letter Modification

An option letter may be used to authorize the Local Agency to begin a phase without increasing total budgeted funds, increase or decrease the encumbrance amount as shown on Exhibit C, and/or transfer funds from one phase to another. Option letter modification is limited to the specific scenarios listed below. The option letter shall not be deemed valid until signed by the State Controller or an authorized delegate.

A. Option to begin a phase and/or increase or decrease the encumbrance amount.

The State may authorize the Local Agency to begin a phase that may include Design, Construction, Environmental, Utilities, ROW Incidents or Miscellaneous (this does not apply to Acquisition/Relocation or Railroads) as detailed in Exhibit A and at the same terms and conditions stated in the original Agreement, with the total budgeted funds as shown on Exhibit C remaining the same. The State may increase or decrease the encumbrance amount for a particular phase by replacing the original funding exhibit (Exhibit C) in the original Agreement with an updated Exhibit C-1 (subsequent exhibits to Exhibit C-1 shall be labeled C-2, C-3, etc.). The State may exercise this option by providing a fully executed option to the Local Agency within thirty (30) days before the initial targeted start date of the phase, in a form substantially equivalent to Exhibit D. If the State exercises this option, the Agreement will be considered to include this option provision.

B. Option to transfer funds from one phase to another phase.

The State may permit the Local Agency to transfer funds from one phase (Design, Construction, Environmental, Utilities, ROW Incidents or Miscellaneous) to another as a result of changes to state, federal, and local match. The original funding exhibit (Exhibit C) in the original Agreement will be replaced with an updated Exhibit C-1 (subsequent exhibits to Exhibit C-1 shall be labeled C-2, C-3, etc.) and attached to the option letter. The funds transferred from one phase to another are subject to the same terms and conditions stated in the original Agreement with the total budgeted funds remaining the same. The State may unilaterally exercise this option by providing a
fully executed option to the Local Agency within thirty (30) days before the initial targeted start date of the phase, in a form substantially equivalent to Exhibit D.

C. Option to do both Options A and B.

The State may authorize the Local Agency to begin a phase as detailed in Exhibit A, and encumber and transfer funds from one phase to another. The original funding exhibit (Exhibit C) in the original Agreement will be replaced with an updated Exhibit C-1 (subsequent exhibits to Exhibit C-1 shall be labeled C-2, C-3, etc.) and attached to the option letter. The addition of a phase and encumbrance and transfer of funds are subject to the same terms and conditions stated in the original Agreement with the total budgeted funds remaining the same. The State may unilaterally exercise this option by providing a fully executed option to the Local Agency within thirty (30) days before the initial targeted start date of the phase, in a form substantially equivalent to Exhibit D.

Section 7. State and Local Agency Commitments

The Scope of Work in Exhibit A describes the Work to be performed and assigns responsibility of that Work to either the Local Agency or the State. The “Responsible Party” referred to in this contract means the Responsible Party as identified in the Scope of Work in Exhibit A.

A. Design [if applicable]

1. If the Work includes preliminary design or final design (the “Construction Plans”), or design work sheets, or special provisions and estimates (collectively referred to as the “Plans”), the responsible party shall comply with the following requirements, as applicable:
   a. perform or provide the Plans, to the extent required by the nature of the Work.
   b. prepare final design (Construction Plans) in accord with the requirements of the latest edition of the American Association of State Highway Transportation Officials (AASHTO) manual or other standard, such as the Uniform Building Code, as approved by CDOT.
   c. prepare special provisions and estimates in accord with the State’s Roadway and Bridge Design Manuals and Standard Specifications for Road and Bridge Construction or Local Agency specifications if approved by CDOT.
   d. include details of any required detours in the Plans, in order to prevent any interference of the construction work and to protect the traveling public.
   e. stamp the Plans produced by a Colorado Registered Professional Engineer.
   f. provide final assembly of Plans and contract documents.
   g. be responsible for the Plans being accurate and complete.
   h. make no further changes in the Plans following the award of the construction contract except by agreement in writing between the parties. The Plans shall be considered final when approved and accepted by the parties hereto, and when final they shall be deemed incorporated herein.

2. If the Local Agency is the responsible party:
   a. The local agency shall comply with the requirements of the Americans With Disabilities Act (ADA), and applicable federal regulations and standards as contained in the document “ADA Accessibility Requirements in CDOT Transportation Projects”.
   b. It shall afford the State ample opportunity to review the Plans and make any changes in the Plans that are directed by the State to comply with State requirements.
   c. It may enter into a contract with a consultant to do all or any portion of the Plans and/or of construction administration. Provided, however, that if federal-aid funds are involved in the cost of such work to be done by a consultant, that consultant contract (and the performance/provision of the Plans under the contract) must comply with all applicable requirements of 23 CFR Part 172 and with any procedures implementing those requirements as provided by the State. If the Local Agency does enter into a contract with a consultant for the Work:
      (1) it shall submit a certification that procurement of any design consultant contract complied with the requirements of 23 CFR 172.5(1) prior to entering into contract. The State shall either approve or deny such procurement. If denied, the Local Agency may not enter into the contract.
      (2) it shall ensure that all changes in the consultant contract have prior approval by the State. Such changes in the contract shall be by written supplement agreement. As soon as the contract with the consultant has been awarded by the Local Agency, one copy of the executed contract shall be submitted to the State. Any amendments to such contract shall also be submitted.
      (3) it shall require that all consultant billings under that contract shall comply with the State’s standardized billing format. Examples of the billing formats are available from the CDOT Agreements Office.
(4) it (or its consultant) shall use the CDOT procedures described in Exhibit A to administer that design consultant subcontract, to comply with 23 CFR 172.5(b).

(5) it may expedite any CDOT approval of its procurement process and/or consultant contract by submitting a letter to CDOT from the certifying Local Agency’s attorney/authorized representative certifying compliance with 23 CFR 172.5(b).

(6) it shall ensure that its consultant contract complies with the requirements of 49 CFR 18.36(i) and contains the following language verbatim:

(a) “The design work under this contract shall be compatible with the requirements of the contract between the Local Agency and the State (which is incorporated herein by this reference) for the design/construction of the project. The State is an intended third party beneficiary of this contract for that purpose.”

(b) “Upon advertisement of the project work for construction, the consultant shall make available services as requested by the State to assist the State in the evaluation of construction and the resolution of construction problems that may arise during the construction of the project.”

(c) “The consultant shall review the construction contractor’s shop drawings for conformance with the contract documents and compliance with the provisions of the State’s publication, Standard Specifications for Road and Bridge Construction, in connection with this work.”

(d) The State, in its discretion, will review construction plans, special provisions and estimates and will cause the Local Agency to make changes therein that the State determines are necessary to assure compliance with State requirements.

B. Construction [if applicable]

1. If the Work includes construction, the responsible party shall perform the construction in accordance with the approved design plans and/or administer the construction all in accord with the Scope of Work in Exhibit A. Such administration shall include project inspection and testing; approving sources of materials; performing required plant and shop inspections; documentation of contract payments, testing and inspection activities; preparing and approving pay estimates; preparing, approving and securing the funding for contract modification orders and minor contract revisions; processing contractor claims; construction supervision; and meeting the Quality Control requirements as described in the Scope of Work in Exhibit A.

2. The State shall have the authority to suspend the Work, wholly or in part, by giving written notice thereof to the Local Agency, due to the failure of the Local Agency or its contractor to correct project conditions which are unsafe for workers or for such periods as the State may deem necessary due to unsuitable weather, or for conditions considered unsuitable for the prosecution of the Work, or for any other condition or reason deemed by the State to be in the public interest.

3. If the Local Agency is the responsible party:

a. it shall appoint a qualified professional engineer, licensed in the State of Colorado, as the Local Agency Project Engineer (LAPE), to perform that administration. The LAPE shall administer the project in accordance with this contract, the requirements of the construction contract and applicable State procedures.

b. if bids are to be let for the construction of the project, it shall advertise the call for bids upon approval by the State and award the construction contract(s) to the low responsible bidder(s) upon approval by the State.

(1) The Local Agency has the option to accept or reject the proposal of the apparent low bidder for work on which competitive bids have been received. The Local Agency must declare the acceptance or rejection within 3 working days after said bids are publicly opened.

(2) By indicating its concurrence in such award, the Local Agency, acting by or through its duly authorized representatives, agrees to provide additional funds, subject to their availability and appropriation for that purpose, if required to complete the Work under this project if no additional federal-aid funds will be made available for the project. This paragraph also applies to projects advertised and awarded by the State.

c. If all or part of the construction work is to be accomplished by Local Agency personnel (i.e. by force account), rather than by a competitive bidding process, the Local Agency will ensure that all such force account work is accomplished in accordance with the pertinent State specifications and requirements with 23 CFR 635, Subpart B, Force Account Construction.

(1) Such work will normally be based upon estimated quantities and firm unit prices agreed to between the Local Agency and the State in advance of the Work, as provided for in 23 CFR 635.204(c). Such agreed unit prices shall constitute a commitment as to the value of the Work to be performed.
(2) An alternative to the above is that the Local Agency may agree to participate in the Work based on actual costs of labor, equipment rental, materials supplies and supervision necessary to complete the Work. Where actual costs are used, eligibility of cost items shall be evaluated for compliance with 48 CFR Part 31.

(3) Rental rates for publicly owned equipment will be determined in accordance with the State’s Standard Specifications for Road and Bridge Construction § 109.04.

(4) All force account work shall have prior approval of the State and shall not be initiated until the State has issued a written notice to proceed.

C. State’s obligations
1. The State will perform a final project inspection prior to project acceptance as a Quality Control/Assurance activity. When all Work has been satisfactorily completed, the State will sign a final acceptance form.
2. Notwithstanding any consents or approvals given by the State for the Plans, the State will not be liable or responsible in any manner for the structural design, details or construction of any major structures that are designed by or are the responsibility of the Local Agency as identified in the Scope of Work in Exhibit A, within the Work of this contract.

Section 8. ROW Acquisition and Relocation
If the Project includes right of way, prior to this project being advertised for bids, the Responsible Party will certify in writing to the State that all right of way has been acquired in accordance with the applicable state and federal regulations, or that no additional right of way is required.

Any acquisition/relocation activities must comply with: all applicable federal and state statutes and regulations, including but not limited to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as amended (P.L. 91-646) and the Uniform Relocation Assistance and Real Property Acquisition Policies for Federal and Federally Assisted Programs as amended (49 CFR Part 24); CDOT’s Right of Way Manual; and CDOT’s Policy and Procedural Directives.

Allocation of Responsibilities are as follows:
- Federal participation in right of way acquisition (3111 charges), relocation (3109 charges) activities, if any, and right of way incidentals (expenses incidental to acquisition/relocation of right of way – 3114 charges);
- Federal participation in right of way acquisition (3111 charges), relocation (3109 charges) but no participation in incidental expenses (3114 charges); or
- No federal participation in right of way acquisition (3111 charges) and relocation activities (3109 expenses).

Regardless of the option selected above, the State retains oversight responsibilities. The Local Agency’s and the State’s responsibilities for each option is specifically set forth in CDOT’s Right of Way Manual. The manual is located at http://www.dot.state.co.us/ROW_Manual/.

If right of way is purchased for a state highway, including areas of influence of the state highway, the local agency shall immediately convey title to such right of way to CDOT after the local agency obtains title.

Section 9. Utilities
If necessary, the Responsible Party will be responsible for obtaining the proper clearance or approval from any utility company, which may become involved in this Project. Prior to this Project being advertised for bids, the Responsible Party will certify in writing to the State that all such clearances have been obtained.

Section 10. Railroads
In the event the Project involves modification of a railroad company’s facilities whereby the Work is to be accomplished by railroad company forces, the Responsible Party shall make timely application to the Public Utilities Commission requesting its order providing for the installation of the proposed improvements and not proceed with that part of the Work without compliance. The Responsible Party shall also establish contact with the railroad company involved for the purpose of complying with applicable provisions of 23 CFR 646, subpart B, concerning federal-aid projects involving railroad facilities, including:
- Executing an agreement setting out what work is to be accomplished and the location(s) thereof, and that the costs of the improvement shall be eligible for federal participation.
- Obtaining the railroad’s detailed estimate of the cost of the Work.
- Establishing future maintenance responsibilities for the proposed installation.
- Proscribing future use or dispositions of the proposed improvements in the event of abandonment or elimination of a grade crossing.
- Establishing future repair and/or replacement responsibilities in the event of accidental destruction or damage to the installation.
Section 11. Environmental Obligations
The Local Agency shall perform all Work in accordance with the requirements of the current federal and state environmental regulations including the National Environmental Policy Act of 1969 (NEPA) as applicable.

Section 12. Maintenance Obligations
The Local Agency will maintain and operate the improvements constructed under this contract at its own cost and expense during their useful life, in a manner satisfactory to the State. The Local Agency will make proper provisions for such maintenance obligations each year. Such maintenance and operations shall be conducted in accordance with all applicable statutes, ordinances and regulations which define the Local Agency’s obligations to maintain such improvements. The State will make periodic inspections of the project to verify that such improvements are being adequately maintained.

Section 13. Record Keeping
The Local Agency shall maintain a complete file of all records, documents, communications, and other written materials, which pertain to the costs incurred under this contract. The Local Agency shall maintain such records for a period of three (3) years after the date of termination of this contract or final payment hereunder, whichever is later, or for such further period as may be necessary to resolve any matters which may be pending. The Local Agency shall make such materials available for inspection at all reasonable times and shall permit duly authorized agents and employees of the State to inspect the project and to inspect, review and audit the project records.

This contract may be terminated as follows:
A. Termination for Convenience. The State may terminate this contract at any time the State determines that the purposes of the distribution of moneys under the contract would no longer be served by completion of the project. The State shall effect such termination by giving written notice of termination to the Local Agency and specifying the effective date thereof, at least twenty (20) days before the effective date of such termination.

B. Termination for Cause. If, through any cause, the Local Agency shall fail to fulfill, in a timely and proper manner, its obligations under this contract, or if the Local Agency shall violate any of the covenants, agreements, or stipulations of this contract, the State shall thereupon have the right to terminate this contract for cause by giving written notice to the Local Agency of its intent to terminate and at least ten (10) days opportunity to cure the default or show cause why termination is otherwise not appropriate. In the event of termination, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs and reports or other material prepared by the Local Agency under this contract shall, at the option of the State, become its property, and the Local Agency shall be entitled to receive just and equitable compensation for any services and supplies delivered and accepted. The Local Agency shall be obligated to return any payments advanced under the provisions of this contract. Notwithstanding the above, the Local Agency shall not be relieved of liability to the State for any damages sustained by the State by virtue of any breach of the contract by the Local Agency, and the State may withhold payment to the Local Agency for the purposes of mitigating its damages until such time as the exact amount of damages due to the State from the Local Agency is determined. If after such termination it is determined, for any reason, that the Local Agency was not in default or that the Local Agency’s action/inaction was excusable, such termination shall be treated as a termination for convenience, and the rights and obligations of the parties shall be the same as if the contract had been terminated for convenience, as described herein.

C. Termination Due to Loss of Funding. The parties hereto expressly recognize that the Local Agency is to be paid, reimbursed, or otherwise compensated with federal and/or State funds which are available to the State for the purposes of contracting for the Project provided for herein, and therefore, the Local Agency expressly understands and agrees that all its rights, demands and claims to compensation arising under this contract are contingent upon availability of such funds to the State. In the event that such funds or any part thereof are not available to the State, the State may immediately terminate or amend this contract.

Section 15. Legal Authority
The Local Agency warrants that it possesses the legal authority to enter into this contract and that it has taken all actions required by its procedures, by-laws, and/or applicable law to exercise that authority, and to lawfully authorize
its undersigned signatory to execute this contract and to bind the Local Agency to its terms. The person(s) executing this contract on behalf of the Local Agency warrants that such person(s) has full authorization to execute this contract.

Section 16. Representatives and Notice
Each individual identified below is the principal representative of the designating Party. All notices required to be given hereunder shall be hand delivered with receipt required or sent by certified or registered mail to such Party’s principal representative at the address set forth below. In addition to but not in lieu of a hard-copy notice, notice also may be sent by e-mail to the e-mail addresses, if any, set forth below. Either Party may from time to time designate by written notice substitute addresses or persons to whom such notices shall be sent. Unless otherwise provided herein, all notices shall be effective upon receipt.

Contractor may contest the final Evaluation, Review and Rating by: (a) filing rebuttal statements, which may result in either removal or correction of the evaluation (CRS §24-105-102(6)), or (b) under CRS §24-105-102(6), exercising the debarment protest and appeal rights provided in CRS §§24-109-106, 107, 201 or 202, which may result in the reversal of the debarment and reinstatement of Contractor, by the Executive Director, upon showing of good cause.

EXHIBIT A – SCOPE OF WORK

The Colorado Department of Transportation (#CDOT#) will oversee the City of Fort Collins (#City#) when the City completes the West Elizabeth Street Corridor Concept Design. This work is necessary because vehicles, cyclists, and pedestrians extensively travel this corridor. This work will allow the City to develop plans necessary to apply for a Small Starts award with FTA. This work will be located on the West Elizabeth Street corridor between Shields Street and Overland Trail.

The work will conform to AASHTO standards, the MUTCD, and all applicable state regulations. The design phase will identify exact requirements, qualities, and attributes for this work (Herein after referred to as #the exact work#). The exact work shall be used to develop 30% plans. The design phase is planned to begin in the fall of 2020.

The project is funded with Multi-Modal Options Funding (MMOF). MMOF funding expenditures shall be invoiced by June 1st of the year they expire.

The maximum amount payable shall be reduced without amendment when the actual amount of the Local Agency’s awarded contract is less than the budgeted total of the State funds and the Local Agency matching funds. The maximum amount payable shall be reduced through the execution of an Option Letter as described in Section 6 of this contract.
