Subject: Notice of Termination of Utilities Service

Dear Utilities Customer:

Fort Collins Utilities has provided multiple communications regarding the need to upgrade its electric and/or water metering equipment at your property, including notification that continued refusal to allow meter upgrades will result in service termination.

You must contact Utilities now at 970.221.6718 to schedule an appointment for immediate installation of upgraded meter equipment to avoid termination of service. If we have not installed upgraded meter equipment by December 2, 2013, electric and/or water utility service will be terminated to your premise.

Utilities will reconnect service at your premises *only during normal business hours* (Monday-Friday 8:00am to 5:00pm) once you have allowed access for the purpose of installing upgraded metering equipment. If service is disconnected, call 970.221.6718 to arrange for reconnection. Service restoration may take 24 hours or longer.

The customer is responsible for preparing the property for restoration of electric and/or water service. The City of Fort Collins is not responsible for damage that may result from failure to prepare for restoration of service.

If you choose not to contact Utilities to arrange for installation of upgraded metering equipment, electric and/or water service will be terminated at your premise after December 2, 2013.
