GOALS AND OBJECTIVES FOR 1992
FORT COLLINS SENIOR ADVISORY BOARD

As stated in the City's boards and commission manual, the Senior Advisory Board has six functions. The functions and 1992 goals and objectives to fulfill them are as follows:

1. To serve as a coordinating agency for senior citizen services and activities in the community:

   We plan to have more accessibility to the senior community for this purpose by:
   a. Continue to do outreach by having a minimum of four meetings at various locations, and in conjunction with senior activities.
   b. Continue to have liaison positions with such senior groups as United Seniors, AARP, Continuum Care Coalition (C3).

2. To assess, publicize and support present senior services and activities:

   We plan to encourage and support communication and programs for seniors, such as:
   a. The Senior Air Borne talk show on KCOL, which will be evaluated the end of February.
   b. Monthly senior section in the Coloradoan, "Prime Time Plus."
   c. Turn the retirement brochure over to funder(s).
   e. Friends of the Senior Center.
   f. Continue, and expand places for information booths at community gatherings such as New West Fest, Harvest Festival, health conferences, etc. Have pertinent, updated flyers available on projects of senior interest as well as about this board.
   g. Continue in a leadership role on the Building Team for Phase III of the new Senior Center.
   h. Support city staff and Building Team with any public meetings or Open House they may hold during Phase 3.
   i. Continue intergenerational programs: Poudre R-1 VIPS, and Latch Key.
   j. Education focus group's accepted proposal to CSU to allow seniors to audit classes.

3. To investigate and evaluate requests for new senior services and activities:

   a. We plan to look into setting up a scholarship fund through the senior center wherein seniors could earn credits by volunteerism. These credits would go towards discounted fees for leisure activities offered by the city such as theater tickets or golf fees.
4. To plan, initiate, develop, and encourage new senior programs as need is indicated.

   a. In addition to #3 (above), we will continue to fulfill this goal as #4 states.

5. To provide wide opportunities for more meaningful and useful participation of senior citizens in community activities and programs.

   a. Host senior function(s) during Older American Month.

6. To establish and maintain communication with local, state, and federal government agencies concerning senior citizens.

   a. Introduce a senior segment into the 24 hour City Hall information bank (Senior Resource Network).
   b. Continue to monitor county programs and activities, and encourage more county support for senior programs.
