SENIOR ADVISORY BOARD

GOALS AND OBJECTIVES FOR 1988-1989

The goal of the senior board in the coming year is to become more visible to the senior population of Ft. Collins, and to promote politically the development of a new senior center for our city.

The objectives of the board are as follows:

1. An open house will be hosted by the board at the senior center during our January meeting. A program will be presented and advertised to encourage attendance from a variety of senior groups. Feedback, ideas and suggestions will be solicited.

2. A "Health and Insurance information Fair" will be offered in March or April, sponsored jointly by the senior board and Poudre Valley Hospital, for the benefit of the senior population. The senior board will be represented at all times during this event to solicit the opinions and concerns of those attending.

3. A nutrition seminar, run by chefs will be presented in June or July. This event will again be promoted through available public service advertising, sponsored by the board and attended by our members.

4. The board will sponsor another "event" sometime in the final quarter of the year, to be determined by response and feedback from the first few programs.

5. The board will re-institute a board visitation program in which the chair of other organizations will be invited to attend and participate in our board meetings throughout the year.

6. The board will continue to seek ways to distribute Guide to Services to more seniors.

7. The board will again serve as the screening agent for the First Interstate Bank Paint-a-thon, prioritizing by need the applicants for this service.

8. The board will investigate the continuing need for low income housing and make recommendations to the city regarding our findings.

9. The board will appoint a committee to develop a political and public relations effort toward the approval of a new senior center.
