

### **ON COURSE WATER HAZARDS**

C.P.N. has only one water hazard on the course. The New Mercer Ditch runs through the course. The ditch comes into play on holes #4, #6, #7, and #9. The ditch is crossed with bridges at #4 teebox, #6 green, #7 forward teebox, and #9 green at the clubhouse. A three foot unmowed area on either side of the ditch is maintained to act as a buffer zone from course activities and wildlife habitat.

### **SHELTERS AND RESTROOMS**

There are three rain shelters located on C.P.N. golf course. The shelters are located at #6 forward teebox, #7 green, and #9 teebox.

C.P.N.'s on course restroom is located between #4 and #7 greens. The restroom has both male and female sections with potable water available for drinking. It is closed during the cold weather season to prevent freeze damage. A portable, unisex restroom is provided during cold weather.
