Ed Bonnette  
City of Fort Collins  
215 N. Mason 2 nd floor  
P.O. Box 580  
Fort Collins, CO 80522

Dear Ed:

After talking with my estimator, both of us failed to read that the utility envelope was a double side seam construction. The pricing for that construction would have been much higher. Again I apologize for any inconvenience this caused you.

Sincerely,

A handwritten signature in black ink, appearing to read "Gerald A. Nix".

Gerald A. Nix

Fort Collins, CO 80522

Dear Ed:

I've also included some samples of the work we do and a list of equipment. National has been in Denver for the last 25 years. We print both sheet fed printing and web work. We can print anything from 1 color letterhead to complex multi color magazines. We are competitive with a small run or very large quantities. We have a inventory management system on line, and we can fulfill the most complex projects. If you have any other questions about our company please give me a call at any time.
