

Erosion and Sediment Control Escrow/Security Calculation

The purpose of this form is to help the applicant estimate the required Erosion and Sediment Control Escrow/Security for a project. Provide details in all highlighted fields.

Project:		Disturbed Acres:	
-----------------	--	-------------------------	--

BMP Amount				
Erosion Control BMPs	Units	Estimated Quantity	Unit Price	Total Price
Silt Fence (SF)				\$0.00
Inlet Protection (IP)				
Concrete Washout (CW)				
Vehicle Tracking Control (VTC)				
<i>Erosion Escrow was collected prior due to site disturbance \$3000 was collected under BMISC200226 ~Jesse Schlam 7/2/2020</i>				
			Sub-Total:	\$0.00
			1.5 x Sub-Total:	\$0.00
			Amount of security:	\$0.00

Reseeding Amount			
		Total Acres x Price/acre:	\$0.00
Unit Price of Seeding per acre:			
		Sub-Total:	\$0.00
		1.5 x Sub-Total:	\$0.00
		Amount to Re-seed:	\$0.00

Minimum Escrow Amount	
Minimum escrow amount:	\$3,000.00

Final Escrow Amount	
Erosion Control Escrow:	\$3,000.00

“The amount of the security must be based on one and one-half times the estimate of the cost to install the approved measures, or one and one-half times the cost to re-vegetate the disturbed land to dry land grasses based upon unit cost determined by the City's Annual Revegetation and Stabilization Bid, whichever is greater. In no instance, will the amount of security be less than one thousand five hundred dollars (\$1,500) for residential development or three thousand dollars (\$3,000) for commercial development”
