Dear Sir:

We, David R. and Dalene F. Anderson, owners of 707 Breakwater Drive in SE Fort Collins, request that the City of Fort Collins eliminate the requirement for a handrail at the front entry of our home. The aesthetics of the front will be lessened by a handrail. The area is well lite and we will keep it clear of ice and other material during the winter. Only five steps are involved.

Thank you.

Sincerely,

David R. Anderson

The required handrail above may be eliminated provided owners assume all responsibility for safety of stair users in lieu of a handrail.
