Mr. Rod Henrichsen
Northern Colorado Plumbing and Drain
737 S. Lemay Ave. B4-142
Fort Collins, Colorado 80524

Mr. Henrichsen,

It has come to my attention that you have made application for various permits faxed to the City connected to your Trust Account. There are currently six applications dating back to last year that have not been paid for or inspected. There are no available funds in your trust account. This is not the first time that you have applied for and failed to pay and obtain the permits for work your company has already performed.

Failing to obtain the required permits and inspections is a violation of your City of Fort Collins registration and could impact your State of Colorado license. I performed a search at DORA and the license number given MP-579, shows this license has expired and is listed to someone else.

At this time, your City of Fort Collins registration for plumbing is placed on hold, until such time that you can show a valid active state Master Plumber license connected to Northern Colorado Plumbing and Drain and yourself. Additionally, the six outstanding permits shall be paid and final inspections performed. Inspectors will investigate addresses where Northern Colorado Plumbing and Drain vehicles are noted. Stop Work Orders will be issued as needed.

You are required to clear these issues, state licenses and permits, within 30 days of the date of this letter. Failing to comply will result in a review of your City issued plumbing registration before the City's Building Review Board (BRB), where staff will be asking that your City registration be revoked. Should the BRB revoke your registration, copies of all materials will be sent to the state for DORA's review.

A handwritten signature in black ink, appearing to read "Michael W. Gebo".
