ATTN: George Brelig, Architect

RE: A addition to #2B ESS and Test Center, 4620 South College Avenue,
Fort Collins, Colorado.

Dear George:

As requested by the City of Fort Collins Building Inspector as per Mr. Jay Williams, superintendent for Sinnett Builders, here is my letter of acceptance that they requested.

I have field observed the installation of the structural aspects of the subject addition from start of the project to its completion. Based on these observations, it is my opinion that the structural aspects of the subject project have been constructed, in general conformance, to the intent of the structural contract documents, and the work is acceptable to me.

Please distribute a copy of this letter to the General Contractor for his distribution to other interested parties.

Sincerely,

Russell M. Miller, P.E., C.C.E.
