*A Belated Merry Christmas! Sorry for the delay but this lump of coal was on back order. Our supplies were depleted due to the extraordinarily high volume of orders for lumps of coal for the POTUS. City of Ft. Collins deserves this lump of coal for the poor quality of the air in the city, the debacle on west Mulberry Street, the uncontrolled growth, obscenely high traffic volume and poor synchronization of traffic lights, the ugly apartment and housing complexes (is the city expecting a visit from Tim Burton?) being built and the proposal to eradicate a valuable open space at the site of the former Hugh's Stadium to build more ugly homes. Kindly get your act together, soon, before Ft. Collins is over run by development nestled under foul air.*
