WORK SESSION

January 24, 2012

after the Urban Renewal Authority Work Session

1. Call Meeting to Order.
2. Overview of the Art in Public Places Program. (staff: Marty Heffernan, Jill Stilwell, Ellen Martin; 45 minute discussion)

Staff is presenting an overview of the Art in Public Places (APP) Program and how it meets its purpose to encourage and enhance artistic expression and appreciation, and add value to the Fort Collins community through acquiring, exhibiting, and maintaining public art.

3. Sister Cities, Friendship Cities, and International Community Relationships. (staff: Diane Jones, Ginny Sawyer; 30 minute discussion)

The City of Fort Collins is frequently contacted by international cities interested in pursuing a relationship with Fort Collins. The City is also approached from time to time by citizens interested in pursuing more formal relationships with international communities. Currently, the City does not have a structure in which to evaluate these requests or to determine what parameters or expectations would be involved.

January 24, 2012

There are a few different models utilizing varying amounts of resources, including Sister Cities International (SCI), a Friendship City program, or a more generic, standard response. By establishing a program and criteria, the City will be better poised to respond to requests and benefit from the positive aspects of these relationships.

4. Planned Development Overlay District. (staff: Karen Cumbo, Megan Bolin; 1 hour discussion)

The Planned Development Overlay District (PDOD) is a newly developed land use tool designed to enhance the Land Use Code process to encourage infill development and redevelopment. The PDOD provides applicants with some flexibility in land use and design while, at the same time, raises the bar in terms of incorporating community sustainability goals within the project. The PDOD is optional and applicants will continue to have the ability to use the standard Land Use Code (LUC) development process.

5. Other Business.
6. Adjournment.
