## City Council Work Session December 9, 2014

After the Adjourned Meeting which begins at 6:00 p.m.

● **CALL TO ORDER.**

1. Renewal of the ¼ - Cent Community Capital Improvement Program and the ¼ - Cent Street Maintenance Program Taxes. (staff: Ginny Sawyer, Darin Atteberry; 10 minute staff presentation; 1 hour discussion)

The purpose of this item is to provide materials and recommendations for Council to consider as the ¼ cent tax renewals move forward.

2. Climate Action Plan - Strategy Analysis and Crafting Scenarios. (staff: Lucinda Smith, Bruce Hendee, Steve Catanach; 15 minute staff presentation; 45 minute discussion)

The purpose of this work session is to summarize results of the preliminary Climate Action Plan (CAP) strategies analysis, outline next steps for model refinement and scenario development, highlight some key tactics proposed in the CAP strategies, review plans for public engagement, outline the scope of the CAP that staff expects to bring to Council in February, and seek feedback from Council. The CAP being developed for February 2015 will provide a high level road map but will not address implementation details. Council will have an opportunity to indicate if the project is moving in the right direction.

In April 2014, City Council asked that an ad hoc committee be formed to develop a proposed updated Climate Action Plan that describes how the community could take to achieve a greenhouse gas emissions reduction goal of 20% below 2005 levels by 2020, 80% below 2005 by 2030, and carbon neutrality (a 100% reduction in net greenhouse gas emission) by the year 2050. This Council work session is the third of four planned work sessions to review progress.

- **OTHER BUSINESS.**
- **ADJOURNMENT.**
