## **WORK SESSION HAS BEEN CANCELLED DUE TO WEATHER**

### **City Council Work Session November 26, 2019**

**After the Adjourned Council Meeting, which begins at 6:00 p.m.**

- **CALL TO ORDER.**

1. Downtown Stormwater Improvement Plan. (staff: Matt Fater, Theresa Connor; 15 minute staff presentation; 30 minute discussion)

The purpose of this item is to update City Council on future stormwater improvements in the downtown area. The downtown area is vulnerable to flood risk and pollution from stormwater runoff. The area was constructed over a century ago prior to design standards and criteria for stormwater management. As a result, there's a lack of infrastructure to manage both stormwater quality and flood risks.

The Downtown Stormwater Improvement Plan (DISP) is a system of stormwater improvements planned to address the stormwater quality and flood risks in the downtown area. The improvements include a combination of storm sewer and water quality enhancements to be implemented over the next 12-15 years. The specific projects in the plan will be recommended in future budget cycles for Council's consideration.

2. Mobility and Transportation Work Session. (staff: Dean Klingner, Paul Sizemore, Drew Brooks; 15 minute staff presentation; 45 minute discussion)

The purpose of this item is to provide an overview of the current state and future opportunities for transportation and mobility in Fort Collins and the surrounding region. Discussion will include regional trends, multi-modal transportation, and the transit system.

3. Climate Economy Update. (staff: Josh Birks, Sean Carpenter; 10 minute staff presentation; 30 minute discussion)

The purpose of this item is to provide Councilmembers with an update on the Climate Economy work being coordinated by the Economic Health Office on behalf of the organization. The update will provide both history and context for current efforts, recent examples of the work, and describe planned integration of Climate Economy principles into existing programs and systems. The update will focus on guiding principles developed from research, interviews with businesses, and experience gained during recent implementation.

- **ANNOUNCEMENTS.**
- **ADJOURNMENT.**
