1. Public Hearing and First Reading of Ordinance No. 145, 2020 Amending the Zoning Map of the City of Fort Collins by Changing the Zoning Classification for that Certain Property Known as the Timberline Church Rezoning. (staff: Jason Holland, Judy Schmidt; 12 minute presentation; 45 minute discussion)

This item is a quasi-judicial matter and if it is considered on the discussion agenda, it will be considered in accordance with Section 1(f) of the Council's Rules of Meeting Procedures adopted in Resolution 2019-064.

At the November 17 Regular Meeting, Council voted to continue this item to the Adjourned Meeting on November 24, 2020.

The purpose of this item is to amend the City's Zoning Map to change the zoning designation for the Timberline Church Campus from Low Density Mixed-Use Neighborhood (LMN) to Medium Density Mixed-Use Neighborhood (MMN). The area proposed to be rezoned is approximately 32.79 acres. The applicant proposes the rezoning to support future infill housing on the site and enable higher density housing than would be allowed with the current LMN zoning. Additional commercial and institutional uses may also be proposed. The church has been in discussions with CSU regarding a potential land swap to construct an attainable housing project. CSU would donate their 4.76 acres on Timberline Road, and the church will swap 8-10 acres for the CSU property.

The rezoning request is subject to the criteria in Section 2.9.4 of the Land Use Code. The rezoning may be approved, approved with conditions, or denied by Council after receiving a recommendation from the Planning and Zoning Board, which voted 6-0 to recommend approval of the request with condition that the residential density be limited to 20 units per gross acre and that an Overall Development Plan (ODP) precede or accompany the Project Development Plan (PDP). The purpose of the condition of approval is to provide a density limit to help achieve a compatible transition with the surrounding neighborhood because the MMN zone district does not have a maximum density requirement. Additionally, the ODP would help identify the general design parameters for the property – including the general location and nature of proposed uses, transportation circulation, open space, buffers, and drainage features. A traffic study is also required. The ODP is required to be reviewed by the Planning and Zoning Board and would require at least one neighborhood meeting.
