Upon request, the City of Fort Collins will provide language access services for individuals who have limited English proficiency, or auxiliary aids and services for individuals with disabilities, to access City services, programs and activities. Contact 221-6515 (V/TDD: Dial 711 for Relay Colorado) for assistance. Please provide 48 hours advance notice when possible.

A petición, la Ciudad de Fort Collins proporcionará servicios de acceso a idiomas para personas que no dominan el idioma inglés, o ayudas y servicios auxiliares para personas con discapacidad, para que puedan acceder a los servicios, programas y actividades de la Ciudad. Para asistencia, llame al 221-6515 (V/TDD: Marque 711 para Relay Colorado). Por favor proporcione 48 horas de aviso previo cuando sea posible.

City Council Work Session
June 8, 2021
6:00 PM

CALL TO ORDER.

- 1. Visit Fort Collins Destination Master Plan and Recovery Plan. (staff: Amanda King; 15 minute presentation; 30 minute discussion)

The purpose of this item is to provide an update on the Destination Master Plan and Recovery Plan, recognizing the impacts to the travel and tourism industry.

Cynthia Eichler, Visit Fort Collins President and CEO will be presenting along with a consultant.

- 2. Water Utility Overview. (staff: Theresa Connor; 20 minute presentation; 30 minute discussion)

The purpose of this item is to provide an overview of the Fort Collins water utility, which provides reliable, high-quality water for approximately two-thirds of the city's residents and businesses. On average, 26 million gallons of water are treated every day. This represents one of the largest investments the City makes in the Environmental Health Outcome Area within the City's services. Investment will be needed now and into the future to address aging water infrastructure, adapt to climate change, meet increased regulations, and ensure enough water to sustain our community's quality of life today and tomorrow.

3. Safe Water Action Program. (staff: Liesel Hans; 15 minute presentation; 45 minute discussion)

The purpose of this work session is to discuss the Safe Water Action Program (SWAP), which is a public health initiative from Fort Collins Utilities to accelerate the identification and replacement any remaining aging galvanized water service lines (utility-owned portion) and lead goosenecks. It is also an effort to educate the public about lead in drinking water, how to identify potential sources of risk, and easy actions anyone can take to reduce risk. While our risk is very low, SWAP protects public health and proactively maintains the safety and reliability of drinking water.
