In response to the extreme drought conditions, the City Council adopted, at its regular meeting on July 16, 2002, Emergency Ordinance No. 112, 2002, prescribing temporary restrictions on the use of City-treated water for lawn watering. At its regular meeting on September 3, 2002, the City Council adopted on second reading Ordinance 118, 2002, adjusting the period of watering allowed for newly seeded and sodded areas, and further reviewed information regarding the effectiveness of the restrictions. The Council generally concluded that, given the seriousness of the drought, saving additional water, above and beyond the water savings resulting from the existing water restrictions, would be prudent. As a result, the Council directed staff to draft an ordinance for consideration at its adjourned meeting on September 10, 2002, that would prescribe that all lawn watering, with certain exceptions, be prohibited effective October 1, 2002.
