Why do you want to become a member of this particular board or commission? The board serves an area of particular interest to me

Briefly explain what you believe are the three most important issues facing this board or commission, and how do you believe this board or commission should address each issue?

- 1) Alternative Fuel Use - I believe the board needs to focus particular attention on the use and promotion of alternative fuels that reduce carbon emissions.
- 2) Carbon Efficient Use Methods - I believe the board needs to examine the ways in which products that emit carbon as a by-product of consumption/manufacture are using methods that are efficient and reduce 'black' emissions.
- 3) Complete Consumption Practices - This is a similar idea to issue #2. Examine facilities/products, that as a result of efficient consumption of carbon emitting inputs, produce by products or waste that potentially has a renewable characteristic to it. In particular fly-ash as a result of coal consumption.

List any abilities, skills, licenses, certificates, specialized training, or interests you have which are applicable to this board or commission:

- Bachelors Degree - Finance - CSU
- Various analytical projects involving carbon reducing projects. Extensive knowledge of Fly Ash.

Why do you want to become a member of this particular board or commission? Always been interested in Police work/their interactions with the public. Currently attending the department's Citizen Police Academy.

Briefly explain what you believe are the three most important issues facing this board or commission, and how do you believe this board or commission should address each issue?

1) Provide an objective view of complaints/concerns about the Police.  
By understanding relevant law and police policies, objectively review these concerns for the benefit of all involved.

2) Reassure the Public that there is an independent group reviewing police actions and procedures. While probably not being allowed to share specific details or outcomes of specific cases, can still reassure the public that things are being independently reviewed.

3) Protect the police officers and department from unreasonable/unfounded allegations, while at the same time providing feedback on their policies and procedures.

Why do you want to become a member of this particular board or commission? While Ft. Collins currently offers several services to elders, we must also develop a plan and infrastructure to accommodate inevitable increases in the number of older residents. I am passionate about the care of our elderly, and wish to lend my experience to the important activities of the SAB.

Briefly explain what you believe are the three most important issues facing this board or commission, and how do you believe this board or commission should address each issue?

1) Transportation. Feedback from senior-based meetings and media reports suggest that elderly residents are concerned with the inadequacy of transportation to health-related appointments. Limited routes and accessibility make Transfort a non-functional means of transportation. Likewise, services such as Dial-a-ride lack the staff and financial support to accommodate the schedules and needs of the elderly. The SAB can serve as a primary advocate to city officials regarding funding for improved transportation, and can also work with the transportation board to develop such services.

2) Healthcare. As the aging population continues to rise in Ft. Collins, so does the demand for accessible health-care services. Public transportation to such services can be improved through SAB collaboration with city officials and the Transportation Board. Also, the SAB can serve as a primary advocate for elderly residents who require healthcare services, but who are either geographically or ethnically underserved.

3) Affordable housing. While property costs and cost-of-living continue to sky rocket in Ft. Collins, elderly residents on fixed incomes are experiencing less and less financial resources to afford quality housing. The SAB is one city affiliation who is positioned to ensure adequacy, safety, and accessibility of affordable housing for the elderly.

List any abilities, skills, certificates, specialized training, or interests you have which are applicable to this board or commission:

Registered Occupational Therapist with experience in gerontology, Research focus: stroke and other healthcare issues affecting the elderly

Please specify any activities which might create a serious conflict of interest if you should be appointed to this board or commission:

None

Have you attended a meeting of the board or commission you are applying to or talked to anyone currently on the board?

Yes  No

Comments: I was unaware of this board until recently, and am very glad that it exists. I look forward to any opportunity to work with this board.
