FINANCIAL IMPACT

This Ordinance appropriates the City's 50% share (\$269,185) of the annual appropriation for the fiscal year 2006 Fort Collins-Loveland Municipal Airport (the "Airport") budget. The City of Loveland manages the Airport's budget and finances, but since the City of Fort Collins owns 50% of the Airport, it is necessary for the City to appropriate its 50% portion of the Airport budget.

EXECUTIVE SUMMARY

The 2006 annual operating budget for the Airport totals \$538,370, and will be funded from Airport operating revenues, contributions from the Cities of Fort Collins and Loveland, and interest earnings. This Ordinance appropriates the City of Fort Collins contribution which is a 50% share of the 2006 Airport budget and totals \$269,185.

This Ordinance also appropriates the City of Fort Collins 50% share of capital funds for the Airport from federal and state grants; passenger charges; contributions from Fort Collins and Loveland; and the Airport General Fund. The capital funds are to be used to construct improvements to the Airport's ramp area for commercial aircraft, reconstruct taxiway Alpha, replace taxiway Alpha's lighting system, replace the airfield lighting control system, fog seal the main runway and replace the markings, and other measures aimed at increasing Airport safety.

BACKGROUND

In 1963, the City of Fort Collins and the City of Loveland agreed to the establishment of a regional aviation facility and became owners and operators of the Fort Collins-Loveland Municipal Airport, located approximately 16 miles southeast of downtown Fort Collins, just west of Interstate 25 on

Earhart Road. The Airport is operated as a joint venture between the City of Fort Collins and the City of Loveland, with each city retaining a 50% ownership interest, sharing equally in policy-making and management, and with each assuming responsibility for 50% of the capital and operating costs associated with the Airport.

The Airport's mission is to provide a safe and efficient air transportation airport facility to the general public and aviation community by providing airport facilities that meet Federal Aviation Administration ("FAA") safety standards and to implement a plan that ensures the efficient development of the Airport to meet the needs of the Fort Collins and Loveland communities.

Airport revenues cover operating costs and capital projects. Each city contributes equal funding for airport operating and capital costs. Airport development and improvement funds are also received, for eligible projects, from the FAA and the Colorado Department of Transportation, Division of Aeronautics.

The annual operating costs for 2006 for the Airport are \$538,370, and the City of Fort Collins contribution is \$269,185.

In addition, the Airport Manager is recommending additional capital expenditures and has identified the following funding sources:

FAA Entitlement and Discretionary Grants	\$ 4,300,000
State Grants	113,160
Passenger Facility Charges	95,000
Contributions - Fort Collins and Loveland	120,000
Airport General Fund	<u>6,150</u>
Total	\$ 4,634,310

The additional capital expenditures will be for the following improvements:

Taxiway Alpha Rehabilitation	\$ 2,608,310
Taxiway Alpha Lighting System Replacement	557,000
Commercial Service Ramp Area Reconstruction - Phase I	1,277,000
Airfield Lighting Control System Replacement	10,000
Main Runway 15/33 Fog Seal and Markings Repainting	<u>182,000</u>
Total	\$ 4,634,310

Thus, the City of Fort Collins appropriation for the capital expenditures identified above is \$2,317,155 (50% of the total).
